From the developers of [Cat President: A More Purrfect Union](#) comes *The Francy Droo & Friends Collection*, a brand-new anthology of bite-sized visual novels! Included in the collection:

- *My Nigerian Prince*, a romance game about spam email and the people who send it. *The e-mail was junk, but their love...was real.*
- *Francy Droo and the Mystery of the Missing Mother-in-Law*, in which a sassy teen detective with no relation to any copyrighted characters whatsoever has to save her friend's wedding, or DIE TRYING.
- *Francy Droo and the Secret of the Shady Midnight Caller*, a mystery game that explores the dangers of answering your phone, like, ever. Follow-up to the SMASH-HIT original *Francy Droo!!*
- *TRAPPED! In a Soap Opera*, in which a hunky TV star crosses over to a fantasy world of evil twins, mysterious pregnancies, and scariest of all—science.
- *Who Am I? The Let's Play Disaster*, in which a Let's Player let's-plays you while you play a game about Let's Playing. I think? It's all very confusing.

The Francy Droo & Friends Collection is coming to Steam on **December 5th!** You'll also be able to purchase the games à la carte on itch.io.
